

5th Colloquium of the International Geoscience Programme (IGCP638) in Ghana

Accra, November 1st - 2nd, 2021

University of Ghana

Followed by a field trip, Nov. 3rd - 6th

Geodynamics and Mineralizations of Paleoproterozoic formations for a sustainable development

Sponsored by UNESCO and organized by **The University of Ghana**

SPONSORS & PARTNERS

THEMES OF THE COLLOQUIUM : Mineral Resources and Metallogeny, Magmatism, Metamorphism and Geochemistry, Mines and Environnement, Exploration geophysics, Hydrogeology, Geochronology and Low temperature Thermochronology, Chronostratigraphy, Sedimentology and Paleontology, GIS and Teledetection, Geopark, Geotourism and Geo-ethics

REGISTRATION & SUBMISSION OF ABSTRACTS : open until **August 5th, 2021**

* IRD grants for best Abstracts dedicated to students (Master, PhD)

* The post-conference field trip (**November 3rd – 6th, 2021**) will be held according to the programme below:

(i) The Paleoproterozoic Birimian and Tarkwaian terrane of the West African Craton in Ghana, about 300 km from Accra: Geological cross section of the southern portion of the Paleoproterozoic Ashanti belt (mainly along the coast lines of Tarkwa, Axim, Butre and Dixcove) and Mine visits.

Tourism: Nzulezu stilt village

(ii) The Phanerozoic sekundian sedimentary formations in Ghana (Takoradi and its environs).

Tourism: scores of beaches and the Takoradi Port

IGCP638 Leaders:

Tahar AïFA / University of Rennes 1 (France)

Moussa DABO / FST / University Cheikh Anta Diop of Dakar (Senegal)

[Contacts in Ghana : Prince Amponsah (+233 506180583) & Daniel Kwavisi (+233 244223097)]
